Dr. Bruce Ford
Ford Foot Center for Surgery
2321 Pyramid Way, Suite B
Sparks, NV 89431

Dear Dr. Ford,

It's been 6 weeks since my Nerve Decompression Surgery in both feet and I am getting better every day! Thanks to you, I truly have my life back! All of the doctors that I have visited to treat my unbearable tingling, burning, shooting pain and soreness over the last year and half said this was a pain that I would live with for the rest of my life! They had me on every medication you could possibly think of. There came a night that I was in so much pain that I did not want to live any longer and thankfully I found your website! I am so thankful you have your website and the information it provides. I knew right away you could help me!

One phone call to Tia and it was like I was off to the races. She helped me get everything in place and I must tell you your staff is absolutely wonderful! I mean every single one of them made my experience great! You all made me feel like someone does truly care! I believe everything and everyone I meet happens for a reason and I am sure glad God answered my prayers and put you in my life that evening back in October when I thought my life was over!

Thanks so much for everything! My family thanks you also! I look foreword to visiting with you and your staff in a few months! I truly love you guys for what you did for me! I will forever be grateful! Happy Holidays and Best Wishes for making someone else's dream come true! With kind and loving regards I am,

Very truly yours,

Tim Perry
